FlutLED Round 2
LED high bay floodlight

FlutLED Round 2

The high bay luminaire FlutLED Round 2 impresses with its design, efficiency, and functionality. Its output can be flexibly adjusted using a slider, providing maximum flexibility of up to 37,000 lumens. This luminaire meets both current and future requirements without the need to replace the lighting system. Thanks to its IP66 protection rating, it is reliably protected against the ingress of dirt and water.

Product features

- Full luminous flux, immediately available
- Low energy consumption with high luminous efficacy
- Low temperature development
- High energy efficiency
- Maintenance-free
- No UV/IR radiation
- Not sensitive to impact and vibrations
- Equipped with Zhaga interface
- Mounting ring included in the delivery
- Mounting bracket (item no. 800890) for wall or ceiling installation optionally available

Technical data

Operating Voltage	100-240 VAC (50/60Hz)
Illuminant	SMD-LEDs
System performance	100W / 120W / 140W / 160W / 180W / 200W
	(6-step adjustable)
Luminous flux	18.500lm - 37.000lm
System Efficiency	ca. 185lm/W
Light color	4.000K / 5.000K
CRI-Index	Ra >80
Beam Beam Angle	120°, symmetrical
L70/B10	> 100.000h
Type of protection light	IP66
Protection class	I
Shock resistance	IK08
Temperature range for operation	25°C to +45°C
Housing material	Die-cast aluminium
Housing surface	PTFE-coated
Housing color	black
Cover	5 mm ESG clear
Weight	6,5 kg
Dimensions Ø x H	400 x 140 mm (without mounting ring)
